Through your financial advisor | You may invest in a fund by contacting your financial adviser. Your financial adviser can help you open a new account, review your financial needs and formulate long-term investment goals and objectives. Your financial adviser or broker will transmit your request to the fund and may charge you a fee for this service. Your broker may also designate other intermediaries to receive orders on the fund’s behalf.

By mail | You may invest in a fund by completing and signing an account application from your financial adviser, through our website, eagleasset.com, or by telephone (800.421.4184). By telephone | You can make additional purchases by telephone by calling (800.421.4184). You must have banking information established on your account prior to making a purchase. Your bank account must be in the same name as your Eagle account. This method cannot be used to open a new account. Once a telephone transaction has been placed, it cannot be canceled or modified.

Availability of these plans may be limited by your financial adviser or institution.

The following disclosure will replace the corresponding disclosure on page 39 in the prospectus in the applicable subsections under “HOW TO SELL YOUR INVESTMENT”:

A shares and C shares | You can sell (redeem) A shares and C shares of your fund for cash at any time, subject to certain restrictions. When you sell shares, payment of the proceeds (less any applicable CDSC) generally will be made the next business day after your request is received in good order. If you sell shares that were recently purchased by check or ACH deposits, payment will be delayed until we verify that those funds have cleared, which may take up to ten business days. Transactions submitted by a third party via ACH will be accepted at the discretion of the transfer agent. Shares are not subject to a redemption fee.

You may contact your financial adviser or the Fund’s transfer agent with instructions to sell your investment in the following ways. Availability of these options may be limited by your financial adviser or institution.

Through your financial adviser | You may sell your shares through your financial adviser who can prepare the necessary documentation. Your financial adviser will transmit your request to sell shares of your fund and may charge you a fee for this service.

By telephone | For certain accounts, you may sell shares from your account by telephone by calling 800.421.4184 prior to the close of regular trading on the New York Stock Exchange (“NYSE”), which is typically 4:00 p.m. EST. If you do not wish to have telephone redemption privileges, you must complete the appropriate section of the account application.

For your protection, telephone requests may be recorded in order to verify their accuracy and monitor call quality. In addition, we will take measures to verify the identity of the caller, such as asking for name, account number, Social Security or other taxpayer identification number and other relevant information. If appropriate measures are taken, we are not responsible for any losses that may occur to any account due to an unauthorized telephone request.

When redeeming shares by telephone, payment of less than \$100,000 can be made in one of the following ways:

- Directly to a bank account for which you have previously provided information to us in writing on your account application or subsequent form. Funds are generally available in your bank account two to three business days after we receive your request; or
- By check to your address of record, provided there has not been an address change in the last 30 calendar days.

In writing | You may sell shares of a fund by sending a written redemption request to the transfer agent at the address below. Your request should be in good order and should specify the fund name and class, your account number, the name(s) in which the account is registered and the dollar value or number of shares you wish to sell. All registered owners on the account must sign the request. Additional documentation may be required for sales of shares held in

corporate, partnership or fiduciary accounts. Contact the transfer agent at 800.421.4184 with questions on required documentation.

Note: The funds do not consider the U.S. Postal Service or other independent delivery services to be their agents. Therefore, deposit in the mail or with such services, or receipt at U.S. Bancorp Fund Services, LLC's post office box, of purchase orders or redemption requests does not constitute receipt by the transfer agent of the funds.

The transfer agent may require a *signature guarantee* for certain redemption requests. A signature guarantee assures that your signature is genuine and protects you from unauthorized account redemptions.

A signature guarantee of each owner is required in the following situations:

- When ownership is being changed on your account;
- When redemption proceeds are payable to or sent to any person, address or bank account not on record;
- When a change of address request has been received by the transfer agent within the last 30 days; and/or
- For redemptions in excess of \$100,000 from any shareholder account, with the exception of directly traded business or omnibus accounts, to existing instructions on file.

In addition to the situations described above, the funds and/or transfer agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the NYSE Medallion Signature Program and the Securities Transfer Agents Medallion Program ("STAMP"). A notary public is not an acceptable signature guarantor.

Non-financial transactions, including establishing or modifying certain services on an account, will require signature verification from a Signature Validation Program member or other acceptable form of authentication from a financial institution source.

Systematic withdrawal plan | You may establish a plan for periodic withdrawals from your account. Withdrawals can be made on the 1st, 5th, 10th, or 20th day of the month at monthly, quarterly, semi-annual or annual intervals. If such a day falls on a weekend or holiday, the withdrawal will take place on the next business day. To establish a plan, complete the appropriate section of the account application or the Eagle systematic withdrawal form

(available from your financial adviser, the funds or through our website, eagleasset.com) and send that form to the transfer agent. The funds reserve the right to cancel systematic withdrawals if insufficient shares are available for two or more consecutive months.

If you elect this method of redemption, a check will be sent to your address of record, or payment will be made via electronic funds transfer through the ACH network directly to your bank account. For payment through the ACH network, your bank must be an ACH member and your bank account information must be maintained on your fund account. The systematic withdrawal plan may be terminated at any time by the fund. You may also elect to terminate your participation in the systematic withdrawal plan at any time by contacting the transfer agent at least five days prior to the next withdrawal.

A withdrawal under the systematic withdrawal plan involves a redemption of shares and may result in a gain or loss for federal income tax purposes. In addition, if the amount withdrawn exceeds any increase in the value of your account (due to asset appreciation or dividends credited to your account, for example) the account ultimately may be depleted.

(b) Eagle Asset Management, Inc. R-3 -1.15%, and Class R-5 -0.60%. The fund's Board of Trustees may agree to change fee limitations or reimbursements without the approval of fund shareholders. Any reimbursement of fund expenses or reduction in Eagle's investment advisory fees is subject to reimbursement by the fund within the following two fiscal years, if overall expenses fall below the lesser of its then current expense cap or the expense cap in effect at the time of the fee reimbursement.

Expense example | This example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Share Class	Year 1	Year 3	Year 5	Year 10
Class A	\$459	\$766	\$1,095	\$2,025
Class C	\$168	\$642	\$1,142	\$2,519
Class I	\$61	\$515	\$995	\$2,321
Class R-3	\$116	\$534	\$977	\$2,209
Class R-5	\$61	\$1,089	\$2,119	\$4,701

Portfolio turnover | The fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when fund shares are held in a taxable account. These costs, which are not reflected in Annual fund operating expenses or in the Expense example, affect the fund's performance. Since the fund's inception on March 1, 2010, the fund's portfolio turnover rate was 53% of the average value of its portfolio.

Principal investment strategies | During normal market conditions, the fund seeks to achieve its objective by investing at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in a portfolio of U.S. and foreign investment grade fixed income instruments of varying maturities. Investment grade is defined as securities rated [BBB-] or better by Standard & Poor's Rating Services or an equivalent rating by at least one other nationally recognized statistical rating organization or, for unrated securities, those that are determined to be of equivalent quality by the fund's Portfolio Managers. The average portfolio duration of the fund is expected to vary and may generally range anywhere from two to seven years based upon economic and market conditions. The fund's strategy is to actively allocate assets among market sectors. The fund expects to invest in a variety of fixed income securities including, but not limited to:

Eagle Investment Grade Bond Fund

SUMMARY PROSPECTUS | 3.1.2011

- corporate debt securities of U.S. and non-U.S. issuers, including corporate commercial paper;
- bank certificates of deposit;
- debt securities issued by states or local governments and their agencies;
- obligations of non-U.S. Governments and their subdivisions, agencies and government sponsored enterprises;
- obligations of international agencies or supranational entities (such as the European Union);
- obligations issued or guaranteed by the U.S. Government and its agencies;
- mortgage-backed securities and asset-backed securities;
- commercial real estate securities; and
- floating rate instruments.

In addition, the fund may invest a portion of its assets in lower-rated corporate bonds and other fixed income securities that focus on delivering high income.

Principal risks | The greatest risk of investing in this fund is that you could lose money. The values of most debt securities held by the fund may be affected by changing interest rates and by changes in the effective maturities and credit ratings of these securities. For example, the values of debt securities in the fund's portfolio generally will decline when interest rates rise and increase when interest rates fall. As a result, the fund's net asset value ("NAV") may also increase or decrease. Investments in this fund are subject to the following primary risks and these risks are further explained in the statutory prospectus under "Additional Information on Investment Strategies" and "Additional Information on Risks."

- Call risk is the possibility that, as interest rates decline, issuers of callable bonds may call fixed income securities with high interest rates prior to their maturity dates;
- Credit risk arises if an issuer of a fixed income security is unable to meet its financial obligations or goes bankrupt;
- Foreign security risk is the risk of instability in currency exchange rates, political unrest, economic conditions or foreign law changes;
- Government Sponsored Enterprises ("GSE") (which are obligations issued by agencies and instrumentalities of the U.S. Government) risk is due to investments in GSEs having variations in the level of support they receive from the U.S. Government and may not be backed by the full faith and credit of the U.S. Government;
- High-yield security risk results from investments in below investment grade bonds, which have a greater risk of loss of money, are susceptible to rising interest rates and have greater volatility;
- Inflation risk is the risk that high rates of inflation or changes in the market's inflation expectations may adversely affect the market value of inflation-sensitive securities;
- Interest rate risk is the risk that the value of a fund's investments in fixed income securities will fall when interest rates rise. The effect of increasing interest rates is more pronounced for any intermediate-term or longer-term fixed income obligations owned by the fund;
- Issuer and market risk is the risk that market conditions or other events that impact specific fixed-income issuers will have an adverse effect on the fund's yield;
- Liquidity risk is the possibility that, during times of widespread market turbulence, trading activity in certain securities may be significantly hampered, which may reduce the returns of the fund because it may be unable to sell the illiquid securities at an advantageous price or time;

- Mortgage- and asset-backed security risk, which is possible in an unstable or depressed housing market, arises from the potential for mortgage failure or premature repayment of principal; and
- Investing in other investment companies and exchange-traded funds ("ETFs") carries with it the risk that by investing in another investment company or ETF, the fund, and therefore its shareholders, indirectly bear the fund's proportionate share of the fees and expenses paid by shareholders of the other investment company or ETF, in addition to the fees and expenses fund shareholders directly bear in connection with the fund's own operations.

Performance | No performance information is presented for the fund because the fund has not been in existence for a full calendar year and, thus, the fund does not have performance history for a complete calendar year. In the future, performance information will be presented in this section. To obtain more current performance data as of the most recent month-end, please visit our website at eagleasset.com.

Manager | Eagle Asset Management, Inc. ("Eagle") serves as investment adviser for the fund.

Portfolio Managers | James C. Camp, CFA®, a Managing Director of Eagle, and Joseph Jackson, CFA®, are Co-Portfolio Managers of the fund and are jointly responsible for the day-to-day management of the fund's investment portfolio. Messrs. Camp and Jackson have been Co-Portfolio managers of the fund since inception.

Purchase and sale of fund shares | You may purchase or redeem shares of the fund on any business day through your financial intermediary, by mail (Eagle Family of Funds, P.O. Box 5354, Cincinnati, OH, 45201-5354), or by telephone (800.421.4184). Shares may also be purchased by check, wire, or electronic bank transfer. In Class A and Class C shares, the minimum purchase amount is \$1,000 for a regular account, \$500 in a retirement account and \$50 through a periodic investment plan. The minimum amount for subsequent purchases through a periodic investment plan is \$50. For individual investors, the minimum initial purchase for Class I shares is \$2,500,000, while fee-based plan sponsors set their own minimum requirements. Class R-3 and Class R-5 shares can only be purchased through a participating retirement plan. The minimum initial purchase for Class R-3 and Class R-5 shares is set by the plan administrator.

Tax information | The dividends you receive from the fund generally will be taxed as ordinary income or net capital gain (i.e., the excess of net long-term capital gain over net short-term capital loss) unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case you may be subject to federal income tax upon withdrawal from such tax-deferred arrangement.

Payments to broker-dealers and other financial intermediaries | If you purchase the fund through a broker-dealer or other financial intermediary (such as a bank), the fund and its related companies may pay the intermediary for the sale of fund shares and related services. These payments may influence the broker-dealer or other intermediary and your salesperson to recommend the fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
